

LIFT HARNESSSES

P/N: Lift Harness-02

A 3-point nylon lift harness with alloy steel latch hooks (per ASTM A952) that is properly designed to stabilize and balance your **SCREEDSAVER II™** machine during lifting.

Quickly snap the locking latch hooks to your machine's welded-on D-rings and raise or lower your SCREEDSAVER II machine to areas otherwise inaccessible.

P/N: Lift Harness-03

A 3-point chain lift harness with 3/8" Grade 100 chain capable of lifting up to 18,770 pounds (8,512kgs) at a 45 degree spread angle. This lift harness is properly designed to stabilize and balance your **SCREEDSAVER MAX™** or **SCREEDSAVER PRO™** during lifting.

Quickly snap the locking latch hooks to your machine's welded on D-rings and raise or lower your SCREEDSAVER machine to areas otherwise inaccessible.
