LIGCHINE

ABOUT

Since its founding in 2007, Ligchine™ has rapidly expanded its position in the market and offers a full line of automated concrete screeding machines that service flatwork companies from small owner-operated companies to large global concrete contractors. The company's headquarters, engineering and manufacturing are in the United States. In addition to a direct sales force in the US, Ligchine has an extensive network of international dealers and partners to serve customers anywhere in the world.

FAST FACTS

DISTRIBUTION

Global coverage through direct sales and dealer network

BEYOND

Superior leveling performance is where it all starts with Ligchine screeds. But to enable our customers to be more competitive and profitable in a tight construction labor market, we must go further.

We must go
BEYOND LEVEL

SUPERIOR LEVEL PERFORMANCE

Ligchine screeds deliver industry leading Floor Flatness (F_p) and Floor Levelness (F_L) results.

SIGNIFICANT LABOR SAVINGS

Ligchine screeds dramatically reduce dependence on labor, which is often in short supply. A laser-guided concrete screed will help contractors perform more efficiently and profitably by being able to produce and deliver a flatter, level floor. Because of how fast these machines can get the job done, contractors will save money by using a smaller crew.

EFFICIENT OPERATION

Ligchine screeds meet the productivity demands of commercial operations. With maximum coverage per pass and simple, quick movement to the next pass we deliver high screed rates per hour – so you can get the job done and move on to the next one.

LEVEL™

EASY TO USE

Ligchine screeds are designed with the operator in mind. Controls are intuitive, allowing operators to quickly become proficient for maximum performance and productivity.

COMPACT AND MANEUVERABLE

Ligchine screeds are developed for real world use. From our smallest to our largest machine, they are engineered to be as compact and maneuverable as possible. Users of these machines say not only does this improve operation on the jobsite, but it also simplifies loading and transport.

HIGH RELIABILITY

Ligchine screeds are engineered to keep you up and running consistently. Downtime, whether planned or unplanned, can have a significant impact on your operations. High reliability and easy-to-perform maintenance are core factors in machine development, from our design concepts to component selection.

24/7 SERVICE AND SUPPORT

Ligchine screeds are backed by a global network of experienced service and support professionals. You've got a job to do – and we are ready to help whenever you need us with 24/7 availability for parts, service, advice or anything else you need to keep your machines operating at peak performance.

HISTORY OF FIRSTS

By designing for constant innovation, Ligchine has led the industry with the most advanced concrete laser-guided screed machines, including the first:

- Wireless remote-controlled screed machine
- Full range of boom-operated screeds to fit every need
- Only laser-guided screed offered with an all-terrain track drive system
- Screed head mounted spray bar system to apply retarders or hardeners while screeding
- Boom machine that can be transported with an economical sized truck and utility trailer
- Boom machine with a screed head that can be changed out in minutes instead of hours
- Boom screed light enough to run on heat tubing, rebar and vapor barriers without damage
- With one-touch control that sets vibration, down riggers and auto level system automatically
- Side-shift head allowing easy maneuvering around stick-ups

“LIGCHINE IS A GLOBAL LEADER IN LASER-GUIDED AND 3D LPS-GUIDED CONCRETE SCREEDS.”

L PRODUCT PORTFOLIO

The Ligchine™ product portfolio is comprised of a full line of high-performance boom-operated screeds and a revolutionary drive-in machine. All machines can be custom configured to operate with multiple machine control systems including laser, mmGPS (satellite) and LPS (robotic).

SCREEDSAVER™ BOOM-OPERATED SCREEDS

Ligchine offers a full line of high-performance boom-operated screeds to address the requirements for commercial concrete flatwork. Our broad range of machines ensures the optimal combination of performance and value for every customer, from small owner/operators to large global construction companies.

- Coverage per screed pass from 120 - 240 sq. ft. (12.1 – 22.3 m²)
- Screed rates of 3,000 - 10,000 sq. ft./hour (278 m² - 929 m²)
- 2D and 3D leveling systems
- Two-wheel drive, zero-turn, (all-wheel drive available on the ELITE only)

INNOVATIVE LASER-GUIDED CONCRETE SCREEDS

Ligchine offers a full line of innovative boom-operated and drive-in laser-guided concrete screeds, specifically developed to meet the challenges of specification-driven commercial flatwork. Our customers are concrete flatwork contractors of all sizes performing work that demands first-rate Floor Flatness (Ff) and Floor Levelness (FL) results.

SPIDERSCREED™

DRIVE-IN SCREEDS

Ligchine SPIDERSCREED drive-in systems are compact, lightweight and maneuverable systems for upper deck concrete and slab-on-grade screeding applications. They offer powerful performance, allowing lower slumps and cooler running at all times.

- Coverage per screed pass - 10 ft. wide screed passes (3.048 m)
- 2D and 3D leveling systems
- Independent zero-turn drive, up to 90° horizontal drive and lateral drive
- Ultra-low weight, with industry's best power to weight ratio of 55 lbs. (25 kg) per horsepower

CUSTOMER-DRIVEN DEVELOPMENT

At Ligchine, listening to our customers is at the core of our business and they play a vital role in helping shape our products and services to support their performance and business challenges. Our approach of listening to customers has led to a continual flow of industry leading technology advancements and innovations.

PARTNERSHIPS FOR INNOVATION

To drive the speed of innovations, Ligchine has partnered with leading providers of the components, systems and technologies that go into our screeds. These close relationships bring the best minds together and allow Ligchine to deliver advanced new capabilities at a rapid pace.

LEVELING SYSTEMS

Ligchine™ has partnered with Topcon Positioning Systems to provide the world's most advanced screeding systems to accurately place concrete on grade, slope, dual slope and 3D contours – and deliver significant labor savings.

We offer turn key solutions from low-cost, entry level systems for the contractor just getting started, to total site management of earth moving machines and concrete machines simultaneously from one system.

You also receive the full technical service support of two world-class organizations working together to ensure optimal performance of your system. Our systems also use numerous common components, allowing you to switch back and forth between mmGPS and LPS as desired, as well as providing a path for cost-effective upgrades.

3D LPS PAVING SYSTEM

The Ligchine 3D LPS paving system provides a cost-effective entry point for LPS (local positioning system) control for concrete paving. The system utilizes an automatic tracking Robotic Total Station to register and maintain screed position from a machine mounted prism and sonic tracker. Height adjustments are transmitted to and from the screed 20 times per second to maintain accurate specifications on the jobsite.

- Lowest cost entry point for a 3D paving system
- World-class accuracy
- Supports high-volume production
- Operates indoors, outdoors and in areas with obstructed mmGPS satellite reception
- Open architecture system

A black and yellow Ligchine Screedsaver Pro Plus machine is shown in a construction setting. The machine has a large auger at the front and a long boom extending to the right. The brand name 'LIGCHINE' is visible on the side of the boom. The background shows a construction site with various materials and equipment.

LIGCHINE

SCREEDSAVER PRO PLUS

SCREEDSAVER PRO PLUS

Introducing the Ligchine SCREEDSAVER™ PRO PLUS. The PRO PLUS is the culmination of 15 years of experience building laser guided screeds. Taking advantage of frame leveling technology that makes achieving FF/FL specifications not only possible but repeatable on a daily basis. The PRO PLUS has SCREEDSHIFT™ technology that was first developed on the MAX PLUS allowing the operator to move the screed head around obstacles and penetrations without rotating the head. The PRO PLUS also utilizes a rotating undercarriage for versatility and speed when operating in smaller or congested areas. With an increased auger size, longer boom reach and wider head, the PRO PLUS is highly productive in all applications from warehouse floors to exterior multiple slope pavements. All these features are achieved while keeping the size and weight of the machine compact, providing the ability to transport the machine with a $\frac{3}{4}$ ton truck and trailer.

Key Features:

The PRO includes our standard features of wireless remote control, fully automatic operation, 3D LPS control.

Screed Head Length:

Completely automatic laser-guided leveling auger high performance 11' (3.4 m) screed head is standard. Boom extension of 18' (5.5 m) results in screed rates up to 200 sq.ft. (18.6 m²) per screed pass.

Engine:

Yanmar 3TNV80F 24HP (18.6kW) diesel engine

Lighting System:

Bright LED lighting system.

Diagnostic Display:

Readily accessible Parker touch-screen display with full diagnostics capability.

LIGCHINE

SCREEDSAVER PRO PLUS

Engine Size	Yanmar 3TNV80F 24 hp diesel
Machine Size (retracted)	W-8' (1.8 m) x L-16' (4.9 m) x H-5' 10" (1.8 m)
Machine Weight	9,180 lbs. (4,164 kg) + screed head
Steering System (hydraulic)	2 Wheel
Drive System (hydraulic)	2-Wheel Proportional Drive
Parallel to the Pour Driving Capable	Yes – 360 degree drive frames (zero turn capable)
Zero-Turn Drive System	Yes
Machine Operation Control	Wireless Remote Control
Coverage per screed pass (no overlap)	200 sq. ft. (18.6 m ²)
Standard Screed Head Width	11' (3.4 m) High Performance
Boom Reach	18' (5.5 m)
Self-contained Concrete Additive Sprayer System	Standard (automatic activation)
Diagnostics (hydraulic, electrical, engine and laser)	Standard – Parker MD4, 7" touch-screen color display
Transport with Pickup Truck and Trailer	Yes
Grade/Slope/Dual Slope control (standard)	Topcon LS-B110
Contoured Slope 3D Capable (optional)	Topcon 3D LPS Robotic

LIGCHINE

SCREEDSAVER ULTRA PLUS

SCREEDSAVER ULTRA PLUS

Introducing the Ligchine SCREEDSAVER® ULTRA PLUS. Born with a long reach and a wide pass, this machine is built to screed more and screed faster. Complete with an ultra heavy-duty boom reaching 20 feet with an all-new High Performance 12.5' screed head. Powering the ULTRA PLUS is a 45 horsepower Kubota turbocharged diesel engine. For increased maneuverability and traction, the ULTRA PLUS includes selectable four-wheel drive with a 2-speed drive range, and four-wheel independent steering. The ULTRA PLUS features a high-tech elevated operator's platform, including a captain's seat, twin joystick controls, and a 7" touchscreen control panel- which also serves as a display for the industry-first SCREEDVIEW™ camera system. On board you will find a built in pressure washer for clean-up, two locking toolboxes, and two high-capacity water tanks.

Key Features: The SCREEDSAVER ULTRA PLUS includes a 12.5' High Performance head, SCREEDSHIFT™ pivoting frame technology, 4 camera SCREEDVIEW™ system, Ligchine Gen 2 Wireless control, and an on-board pressure washer.

Drive & Steering : Selectable 4-wheel drive, with 2-speed drive range, and four wheel independent steering.

Engine: Kubota V1505, 4-cylinder, turbocharged diesel engine.

Lighting System: Front and rear LED pods.

LIGCHINE

SCREEDSAVER ULTRA PLUS

Engine Size	Kubota V1505, 4-cylinder / 3,000 rpm, Turbo-Diesel
Machine Size (retracted)	W - 8' 4" x L - 18' 8" H - 7' 2"
Machine Weight	TBD
Steering System (hydraulic)	4-wheel independent steering
Drive System (hydraulic)	Selectable 4 wheel, with 2-speed drive range
Parallel to the Pour Driving Capable	Yes – 360 degree drive frames (zero turn capable)
Lighting System	2 forward and 2 rear LED light pods
Machine Operation Control	Operator's Platform with Twin Joystick control or 100% Wireless Remote Control
Coverage per screed pass (no overlap)	240 sq. ft.
SCREEDSHIFT™ range of motion	12 degrees total motion: 6 degrees left and right
Boom Reach	20'
Self-contained Concrete Additive Sprayer System	Standard
Diagnostics (hydraulic, electrical, engine and laser)	Dual Parker MD4, 7" touch-screen color display
Machine Length When in Trailer Mode	26' 9"
Grade/Slope/Dual Slope control (standard)	Topcon LS-B110
Contoured Slope 3D Capable (optional)	Topcon 3D LPS Robotic

LIGCHINE

SCREEDSAVER MAX PLUS E

SCREEDSAVER MAX PLUS E

The new SCREEDSAVER® MAX PLUS E builds on the success of the revolutionary SCREEDSAVER® MAX PLUS with an industry-first 100% lithium-ion electric power system. The MAX PLUS E is equipped with EDRIVE, a 48-volt electrically driven hydraulic power unit. The MAX PLUS E features a built-in diagnostic touchscreen, revolutionary SCREEDSHIFT™ pivoting frame, Topcon® laser receivers, and Ligchine Gen 2 wireless remote control system. Now you can safely screed indoors and in climate sensitive environments with the all new MAX PLUS E.

Take your business to the next level– go zero emissions with Ligchine!

Screed Coverage: The MAX PLUS E offers 17' (5.18m) of boom extension with a 10' (3m) SCREEDSAVER head.

Energy Storage: 48V Lithium Ion.

Electric Motor System: 48V 3-Phase AC Liquid Cooled electric motor.

Drive System: 2 wheel proportional drive with wireless remote control.

SCREEDSHIFT™ Pivoting Frame: 12 degrees of total movement, with up to 5'3" (1.6m) of side-to-side screed head movement with a pivoting boom member.

Grade/Slope/Dual Slope Control: Topcon® LS-B110 laser receivers (included).

Ease of Transport: The MAX PLUS E can be towed with pickup truck and trailer and pass through 6' door openings.

Machine Size (retracted)	W-6' 3" (1.9 m) x L-15' 10" (4.8 m) x H (top of pivot post)-5' 7" (1.7 m)
Machine Weight	5000 lbs. (2,177 kg)
Steering System (hydraulic)	2 Wheel Steering
Drive System (hydraulic)	2 Wheel Proportional Drive
Parallel to the Pour Driving Capable	Yes - 90° Manual Pivoting Undercarriage Drive Frame with SwingBoom™
Machine Operation Control	Ligchine Gen2: Wireless Remote Control - Scanreco
Coverage Per Screed Pass (no overlap)	170 sq. ft. (15.79 m²)
Screed Head Width	10' (3 m)
Boom Reach	17' (5.18 m)
Transport with Pickup Truck and Trailer	Yes
Screed Head Options	10' SCREEDSAVER Head, 9' High Performance Head
Grade/Slope/Dual Slope Control (standard)	Topcon® LS-B110 Receivers (included)
Contoured Slope 3D Capable (optional)	Topcon® 3D LPS Robotic
Extras	Tool Box, LED Lighting, Spray System

LIGCHINE

SCREEDSAVER MAX PLUS

SCREEDSAVER MAX PLUS

Based off the successful SCREEDSAVER® MAX platform, the sleek SCREEDSAVER® MAX PLUS adds new features such as a built-in diagnostic touchscreen, revolutionary SCREEDSHIFT™ pivoting frame, Topcon® laser receivers, a totally revised wireless remote control system, and a feature packed, quiet Honda gasoline engine.

Screed Coverage: The MAX PLUS offers 17' (5.18m) of boom extension with a 10' (3m) SCREEDSAVER head.

Engine: Honda iGX800 - electronic fuel injection, air cooled, four stroke, 24.9HP (18.5kW).

Drive System: 2 wheel proportional drive with wireless remote control.

SCREEDSHIFT™ Pivoting Frame: Up to 5'3" (1.6m) of side-to-side screed head movement with a pivoting boom member.

Grade/Slope/Dual Slope Control: Topcon® LS-B110 laser receivers (included).

Ease of Transport: The MAX PLUS can be towed with pickup truck and trailer and pass through 6' door openings.

LIGCHINE

SCREEDSAVER ELITE

SCREEDSAVER ELITE

Meet the SCREEDSAVER® ELITE, the best-selling offering in the Ligchine SCREEDSAVER line of innovative, labor-saving machines. The SCREEDSAVER ELITE is loaded with features including all-wheel drive, heavy-duty boom reaching 18 feet, twin 33-gallon on-board fluid tanks and an on-board pressure washer for clean-up. The game changing side-shift head makes it easier to screed around stick-ups in slabs with pinpoint accuracy. The ELITE is the most versatile laser guided screed machine from Ligchine.

Key Features:

The SCREEDSAVER ELITE includes a 11 foot sideshift screed head, selectable all-wheel drive, revised remote control system, and an on-board pressure washer.

Engine:

Kubota V1505, 4-cylinder, diesel engine.

Lighting System:

Front and rear LED pod lighting.

Diagnostic Display:

Readily accessible Parker touch-screen display with full diagnostics capability.

Transport:

Ease of transport with a 3/4 ton pickup truck and trailer.

LIGCHINE

E-Z PLACER

E-Z PLACER

The LIGCHINE E-Z PLACER is a self-propelled concrete placer and line moving system all in a single, portable unit. This all-in-one machine provides industry-leading reach and maneuverability thanks to the 27' of 4" delivery tube, 360° swivel on the main and tip boom sections, and the agile steering system. With a 60" wide footprint and a weight of 4,000 lbs., the LIGCHINE E-Z PLACER provides a compact and versatile package that can efficiently be utilized in most job site applications.

Key Features: The E-Z PLACER features a two-section 27' placer boom with 360° coverage, all wheel drive, all in a compact, lightweight 60" wide footprint.

Engine: 13 HP Honda GX390, gasoline.

Control: Fully remote, single operator. Plus a full set of machine-mounted manual backup controls.

Drive & Steering: All-Wheel Drive with agile All-Wheel Steering.

Delivery Line: 4" connection at rear or side.

Compact Size: 60" width fits through most commercial doorways.

Transport: Easy-to-transport with a 3/4 ton pickup truck and trailer.
