Fabricator/Welder

Date posted: June 3, 2026

Job description:

Salary Range – Dependent on experience

Job Type: Full-time, In Person

Shift: 8 hours

Location – Beloit, WI.

Reports to – Director of Product Development

COMPANY DESCRIPTION

Ligchine was founded in 2007 and is a manufacturer of highly sophisticated concrete laser-guided screed machines, road building attachments, and concrete buggies. The company has ships worldwide and has consistently grown on a year-over-year basis. Due to this growth, the company is seeking to hire a fabricator/welder at our facility in Beloit, Wisconsin.

KEY RESPONSIBILITIES

- Work with the R&D team to fabricate prototype equipment.
- Work with the production floor regarding any heavy fabrication duties that arise.
- Work with the service team to diagnose, fix and document issues that arise in the field.
- Work with the R&D team to conceptualize and design prototype equipment.
- Keep drawings up to date through the prototype/debug process to turn around a drawing package to vendors upon completion.
- Assist in designing machines and creating part drawings & weldment drawings.

CANDIDATE MINIMUM REQUIREMENTS

- 5 – 10 years of welding and fabrication experience.
- Attention to detail.
- A strong work ethic is an absolute must as our company often spikes with workloads during new product launches and peak seasons. Ability to work overtime at certain times is required.
- Prior mechanical assembly experience is helpful.
- Knowledge of mechanical/hydraulic applications is helpful.
- Prior welding knowledge and experience is required.
- Excellent attendance.
- Welding: 5 years (Preferred)

BENEFITS

- 401(k)
- 401(k) matching
- Health insurance
- Dental insurance
- Health savings account
- Paid time off
- Vision insurance
